SUBJECT

Prohibition of export of Mica

Sr No 2

Notifies that the transport of mica outside state is prohibited

Forwarded
7th Sept '44

Src Y-44-1

Office of the Director,
Mysore Geological Department.

No. 985/Ind.2.

Bangalore, 6th July, 1944.

To

K. Subba Rao, Esq., B.A.,
Secretary to the Government of
His Highness the Maharaja of Mysore,
General Department, Bangalore.

Sir,

Adverting to Government Notification No.D.4252/I.&.C.647-42-2 dated 24th December 1943 prohibiting, under sub Rule (2) of Rule 81 of the Defence of India Rules, as applied to Mysore, the transport of chrome to any place outside the State except under and in accordance with the terms and conditions of a permit issued by the Director of Geology, I have the honour to state that it is considered necessary to impose similar restriction on the export of mica out of the State.

At present, mica can be exported out of the State in any quantities and without any previous intimation to the Director of Geology. For ascertaining the quantities thus exported, reliance will have to be placed on the figures which the licensees and lessees furnish in their quarterly statements and those figures cannot be verified for a long time till we receive the statements of mineral traffic from the Railways. Besides the transportation by Railways, there may be chances of clandestine removal of dressed mica as passenger's luggage.

The royalty on mica, as per rules, is five per cent of the sale value at the pit's mouth and the Joint Mica Mission who are purchasing large quantities of Indian mica classify the dressed micas into several different grades, with proportionate increase in prices from the lower to the higher grades. To assess the royalty to be recovered correctly it is necessary to know the exact grade of the mica transported. Since mica is, at present, transported without our previous knowledge, it is not possible to ascertain the grade of the mica sent out. The licensees and lessees may show in their quarterly returns much of the mica transported as waste or of the lowest grade and class only a small proportion under the higher grades. From such wrong returns which are unverifiable at present, there is a risk of the Government losing a large proportion of the royalty which they may otherwise get if the mineral, prior to its export, is properly classified into its specific grade by an officer of this Department.

It is, therefore, absolutely necessary to prohibit the export of mica outside the State without a permit. Under the circumstances, I beg to recommend that Government may be pleased to order the prohibition under sub Rule (2) of Rule 81 of the Defence of India Rules, as applied to Mysore, the transport of mica to any place outside the State except under and in accordance with the terms and conditions of a permit issued by the Director of Geology in Mysore who has to function as the Mica Controller on behalf of the Government, as in the case of chrome ore. The proposed forms of application and permit with the terms and conditions of grant are also submitted herewith for the approval of Government.

I have the honour to be,
Sir,
Your most obedient servant,

B R Ramarao

DIRECTOR,
Mysore Geological Department.

Ar.6/7.

Form No. I.

Application for Permit to transport Mica outside Mysore State.

From

.....

.....

To

The Director of Geology ~~and~~
(Mica Controller) in Mysore,
Bangalore.

Dear Sir,

Please permit me/us to transport to the Province/State of .....
..... the quantities of mica shown below :-

1. Date within which applicant desires to transport.

2. Quantity of mica to be exported in lbs.

Kind of mica.	Quantity.	Grade of mica. (Size, colour, purity, etc., of the dressed sheets, rounds and cut pieces, and their grades should be accurately specified).
a) Dressed Mica in sheets.		
b) Rounds & Cut pieces.		
c) Waste mica.		

3. Price per lb. (stating place) of each grade, separately.

4. Source from which the supply for export is drawn. (Full details as to whether the mica was purchased or mined to be furnished).

5. Mode of transport (by road, rail or otherwise to be specified).

6. Mine or place from which the mica is to be exported and the Consignor's name and address.

7. Destination of export with the name and address. If the consignee is not the actual buyer, the buyer's name and address should also be furnished).

8. Is the export in compliance with any order in connection with war purpose? If so, a copy of the order should be sent.

9. Other particulars which the applicant wishes to state.

I/we also hereby certify that the particulars given above are correct to the best of my/our knowledge and belief.

Signature of Applicant.

Note:- As a Permit issued will cover only one consignment separate applications should be made in respect of each separate consignment.
